By Nirvista Group of Companies

1. WHAT IS INFINITY 8?

Infinity 8 is a structured 8-level direct selling compensation plan integrated with a blockchain-powered token ecosystem.

It combines:

- Structured 8×8 network architecture
- 8 defined income streams
- Token-backed reward system
- Salary qualification system
- Profit participation & leadership rights
- Liquidity protection mechanism

It is not a random MLM. It is mathematically capped and structured for sustainability.

2. STRUCTURE OVERVIEW – THE 8×8 MODEL

Each member can directly refer **8 people**.

Each of those 8 can refer 8 more.

This continues up to 8 levels deep.

Why 8×8?

- Creates controlled exponential expansion
- Limits structural overgrowth
- Ensures predictable payout liability
- Keeps mathematical cap intact

The payout is capped at 45% of revenue to protect company stability (as outlined in the Infinity 8 payout structure) .

3. LEVEL-WISE COMMISSION STRUCTURE

Direct sales commissions are distributed as follows:

Level	Commission %
1	15%
2	10%
3	8%
4	5%
5	3%
6	2%
7	1%
8	1%

Key Highlights:

- 33% paid within first 3 levels (strong early momentum)
- Decreasing structure ensures sustainability
- Total payout cap: 45%

This prevents financial imbalance and protects long-term operations.

4. THE 8 WAYS TO EARN
